Principal's foreword

Introduction

Grovely State School: A school of choice, united in purpose.

Grovely State School is an innovative middle sized school offering both Mainstream and Montessori learning pathways. The only school of its kind in Queensland, our community has embraced a different methodology to provide greater choice for how students learn. The inclusion of Montessori Learning as an option since 2009 has significantly enriched offerings across our community.

Our school caters for students from Prep to Year 7.

At Grovely we foster and enjoy strong, positive relationships with our students, parents and community. We know that learning is enhanced when parents, students and teachers work in close partnership.

We celebrate our diversity.

Ensuring optimal achievement for all students is central to all that we do.

Vicki Baker

Principal

School progress towards its goals in 2013

In 2013 our school continued to make significant progress priority areas identified in the school's Explicit Improvement Agenda. The Grovely School community is very proud of these achievements that have established Grovely as an innovative, positive and safe learning environment for all students. Staff embrace their roles as educators professionally and are passionately committed to ensuring the best educational opportunities for every student in the school. Our 2013 achievements include:

- A highly successful Teaching and Learning Audit. Across all eight domains school performance was mapped in the High and Outstanding elements. Auditor Peter Mandryk stated, *"There's nothing mediocre about this school."*
- The fifth year of implementation of the Montessori Learning Program. Eight multi-age classes catering for more than 185 students are now in place.
- Significant improvement in student achievement, particularly in the Early Years. The number of students achieving in the Upper Two Bands in Reading (44%) is particularly noteworthy.
- Implementation of the Australian Curriculum.
- Alignment of the Montessori Curriculum to the National Curriculum.
- Continued focus on whole school pedagogical practices based on:
 - the use of data to inform learning
 - systematic curriculum delivery: this includes the recognised Montessori Curriculum
 - focus of time on task
 - explicit teaching
 - rigorous whole school assessment and reporting
- The development of a whole school, consistent approach to the teaching of writing, spelling and comprehension.
- Focussed professional learning for staff.
- Continuing to build strong school community partnerships: The School-wide Positive Behaviour Program began in 2012 and has continued to impact on practices across the school. The Grovely Values complement the school's 7 Habits Program and underpin practices and processes within our community.
- Continuing to build community confidence and satisfaction with the quality of programs.

Our school at a glance

Future outlook

Grovely State School: A school of Choice, United in Purpose.

Our focus for the future is strongly centred on meeting the learning needs of students and establishing Grovely State School as a school of choice in the local area. Our key priorities include:

Implementing a rigorous Explicit Improvement Agenda to maximise the performance of all student and improve school performance ***Learning is the Work...***

Continue to:

- Improve the achievement of all students with a focus on increasing the number of students in the U2 Bands. In Reading, Numeracy and Writing.
- Develop strong, positive partnerships with parents and the wider community through the Parent and Community Engagement framework.
- Ensure integrity of the implementation of the Australian Curriculum in Montessori and Mainstream pathways.
- implement the school's Pedagogical Framework with emphasis on embedding higher order thinking skills and consistent and effective practices encompassing :

Evidence-based practices

Explicit teaching

Inquiry based learning

Deep learning

High expectations

Continuous monitoring of student learning to inform teaching and learning

Personalised learning goals for students

Environments that are calm, ordered, engaging and conducive to learning:

Learning is the Work....

Develop teacher and leader capability through the school's newly introduced Collaborative Professional Learning process and (AITSIL) Developing Performance process.

Develop close partnerships with Early Education Centres and implement a school-based Playgroup program to support the transition of children to school and foster the early acquisition of literacy and numeracy skills.

School Profile

Coeducational or single sex: Coeducational

Year levels offered in 2013: Prep Year - Year 7

Total student enrolments for this school:

	Total	Girls	Boys	Enrolment Continuity (Feb – Nov)
2011	320	134	186	93%
2012	336	152	184	89%
2013	357	164	193	93%

Student counts are based on the Census (August) enrolment collection.

Characteristics of the student body:

Enrolment for the year reached 364 students which is an increase of approximately 30 students from the previous year. It is anticipated that enrolments will increase steadily over time as the Montessori program transitions through the school.

Within the school community many cultures are represented but none in large proportions. This provides a wonderful opportunity for students to learn from each other. Approximately 8% of students are Indigenous. Our Indigenous students and families have a significant role in our community. Our diversity is also reflected in the socio-economic backgrounds of families. The implementation of the Montessori program is attracting families from suburbs not in the school's immediate catchment area. A number of families have relocated to the area to access this program.

Student learning is also diverse. Learning is personalised to cater for the range of skills and abilities. The school caters for students with special needs in the areas of Autistic Spectrum Disorder, Intellectual Impairment and Speech Language Impairment. Students are integrated into both the Mainstream and Montessori programs. Enrichment and special interest programs are also offered.

Average Class sizes

Phase	Average Class Size

Exclusions	0	0	0
Cancellations of Enrolment	0	0	0

Curriculum offerings

Our distinctive curriculum offerings

School programs incorporate all Key Learning Areas. There is a strong emphasis on ensuring curriculum is matched to student needs. There is also a strong commitment to developing sound academic skills as well as life skills and character education.

Our foundation to learning centres on a unique approach to develop *'kids with character'*. This process incorporating the three Values of Respect, Responsibility and Resilience and the 7 Habits of Highly Effective People is embedded in the culture of the school. Students are explicitly taught the Values and Habits and to be independent learners able to take ownership of their learning.

A Montessori Learning Program is an alternate, quality education provision. Approximately 180 students have their educational needs met in this multi-age environment. This program is highly personalized with an emphasis on deep, 'hands on' learning through the specific and purposeful use of materials and curriculum offerings. Similar aspirations are evident in our Mainstream program.

A cultural program to embed indigenous perspectives and acknowledge the diversity in our school community is enacted. Special events include Harmony Day, Sorry Day, Artist in Residence Programs and NAIDOC week;

A camping program for students in Years 6 and 7 is an opportunity for students to develop their leadership skills and challenge them to explore their potential.

A range of excursions and incursions connect learning to the real world.

The school has a 25m pool. Swimming is offered to all students in first and fourth terms.

The use of technology to support student learning is increasing. Laptops have been introduced to year 6 and 7 classes. Interactive whiteboards are installed in every classrooms in the school. The school has a well-resourced electronic learning centre. Classes use the centre to develop and improve information communication technology skills

Our school at a glance

The school's Arts program includes:

An Instrumental Music Program in brass, woodwind, percussion and strings. Beginner and Intermediate instrumental music cluster camps are offered to students learning instruments.

A choral program for students from years Prep-7.

Opportunities for students to develop creativity through a variety of Visual Art offerings is increasing. Exposing students to talented artists is a school focus.

Extra curricula activities

The school's music program is a strength of the school's curriculum offerings. An increasing number of students participate in both the choral and instrumental music programs. Students from Prep and Year 1 form the school's Junior Choir. Senior Choir members are drawn from Years 2-7. A Music Supporters Group of dedicated volunteer parents supports the work of staff.

An extensive Student Leadership program is implemented to develop responsibility and provide students with a voice within the community. Student leaders in Years 6 and 7 participate in leadership camps and activities. A Student council is operational, leading a number of school activities throughout the year.

The Garden Club: Students have the opportunity engage in 'real life' learning and to develop their skills in growing, harvesting and cooking vegetables.

The school has a Science Club that meets each week to 'play', experiment and foster a love of Science.

The school has its own swimming club. The 'Grovelly Gators', which meets each Friday night throughout the swimming season.

The school chaplain runs programs to support the health and wellbeing of the students.

Students participate in interschool sport activities e.g. touch football, soccer, rugby league, cricket, softball and netball.

Participation in the ICAS Competitions in the areas of English, Mathematics, Science and Computer Skills is offered.

The school has a Swimming Club that meets each Friday night in summer. The club's emphasis is on participation and caters for a range of swimming abilities.

How Information and Communication Technologies are used to assist learning

Staff and students are continually challenged to explore innovative ways of using Information Communication Technologies (ICT's) embedding them into classroom activities and use as tools for learning. One Portal is the single point of truth for all communications in the school. The Learning Place with its vast array of programs and digital on line learning opportunities is being used more effectively by staff and students to support and personalise learning.

The range of technologies available includes, computers, laptops, Ipads, Ipods, digital cameras and interactive whiteboards. These technologies are used to support and enhance classroom instruction and student learning.

All classes have internet access and use the internet to support curriculum activities.

Our school at a glance

Every classroom has computers. All have interactive whiteboards. The school has an electronic learning centre with thirty computers for whole class use, which is accessible to all classes in the school.

Laptops are being increasingly used in classes from years 4-7.

Students in the school engage in sequenced activities to develop their skills.

Staff continually update their knowledge and capacity to use the technologies available to enhance teaching and learning programs. ICT's are used to achieve learning goals with tools and resources carefully selected to support student learning.

The capacity of One School is being maximised to support finance, school management, reporting, and planning and data collection.

Our school at a glance

Social climate

Grovely State School promotes respectful relationships, communication and behaviour in an environment that is safe, respectful and conducive to successful social, emotional and academic growth.

There is an underpinning set of core Values and Habits that guide practices and processes within the school for all members of the community. Students are explicitly taught what it means to be Resilient, Responsible and Respectful.

These Values and Habits, powerfully describe what is expected and how it is expected that all members of the school community interact.

A comprehensive Responsible Behaviour Plan, articulates the policies and procedures relevant to managing all aspects of school climate.

Each week the whole school focuses on an aspect of the Values Framework through explicit teaching and teachable moments. Paralleled with the explicit teaching of Stephen Covey's 7 Habits of Highly Effective People, they combine to foster strong character in our young people. Each fortnight as assembly those students across the school are recognised through the school's Leader awards. This process is valued highly by our community.

Issues related to bullying are dealt with in a timely and responsive manner with support given to both the child bullied and the bully. In any serious bullying issues, parent support and involvement is included. Educating students and families about issues related to cyber bullying is a focus.

A range of programs are run to support student well-being. Programs such as *Friends, Fun Friends, and Seasons* are offered throughout the year. The school chaplain and Red Cross Project officer work actively with students and families in varied ways to meet needs. They also offer Parent Education programs on a range of topics. They also work as intermediaries to link families with agencies in the wider community.

Visitors to the school often comment on the lovely 'feel' of the school, the calmness of the environment, the friendliness of students and professionalism of staff.

Parent Opinion Survey and Student Opinion Survey data in most aspects of School Climate in 2013 reported high satisfaction levels. This can be attributed to the high levels of engagement and opportunities that parents have to participate in the learning of their children and life of the school.

93% of students report that they feel safe at this school.

Our school at a glance

Involving parents in their child's education

The strength of our community can be attributed to the support that we receive from parents to support the life and learning of the school. We work alongside parents and caregivers in all aspects of school life, including both formal and informal consultative processes, with a view to always striving to create a supportive school environment focused on students.

Formal parent, student and teacher meetings are conducted each semester to share the learning journey of students and allow learning goals for students to be collaboratively developed. Report cards are issued twice per year. Teachers communicate with parents through fortnightly class newsletters and are available on request for meetings to discuss the individual needs of students.

Each term all parents are invited into the school to celebrate their child's learning. Known as *Celebrations of Learning* these sessions are extremely well attended and an important part of developing strong links between home and school. This time provides a wonderful opportunity for parents to provide feedback to their child on their learning and develop goals as they move forward.

A Room Parent process is operational to further improve the communications between home and school. Parents take on a variety of roles aimed directly at making sure parents were well informed of school offerings and processes and feel welcome in the school.

The school hosts a variety of parent sessions to provide information on a variety of issues and topics.

Each week the school hosts 'Community Coffee'. The principal and members of staff attend making themselves available to parents. Parents often take this opportunity to have informal chats about school issues and their child's learning.

Parents and caregivers are involved in many aspects of their child's education including:
Involvement in the school's P&C.

Supporting teachers in the classroom by assisting small groups and individual students with learning activities.

Resource making

In the library

Supervisors for lunch time activities

Supporting students and teachers at athletics and swimming carnivals etc.

Supporting the school's Music Program.

Support for fundraising initiatives. This directly supports all students.

The Tuckshop and Swim Club sub-committees.

Breakfast Club.

The Garden Club.

Parent volunteers form a significant part of our community providing a range of skills and services to support students and programs within our community. All volunteers receive training and support and their time and commitment is valued highly. They play a vital role. We could not accomplish for students what we do without them.

Our school at a glance

Reducing the school's environmental footprint

Efforts to reduce the school's carbon footprint are being made. Water from tanks is used in all of the school's toilets. Water efficient taps are installed. Solar panels were installed at the end of 2009. Energy efficient lighting was installed in all rooms in 2010. Students engage in units of study to improve their awareness and knowledge related to sustainability and care for the environment. A reduction in electricity was noted in this year. The increase in overall water usage can be attributed to the increase of student enrolment.

	Environmental footprint indicators	
	Electricity kWh	Water kL
2010-2011	152,760	1,267
2011-2012	150,240	2,855
2012-2013	150,939	3,500

The consumption data is sourced from the validated utilities expenditure return which the school submits at the end of each financial year. The data provides an indication of the consumption trend in each of the utility categories which impact on the schools environmental footprint.

** Graduate Diploma etc. includes Graduate Diploma, Bachelor Honors Degree, and Graduate Certificate

Expenditure on and teacher participation in professional development

The total funds expended on teacher professional development in 2013 was \$36078.

A significant emphasis is placed on developing teacher and leader capability. For staff as with students, *Learning is the Work*.

Professional learning programs respond to the needs of individual staff, school needs, and system imperatives. Data is gathered through developing performance conversations.

Staff meet regularly with the Principal to reflect on their work and design personal development plans that set targets for professional learning that will develop their capacity to meet the needs of the learners under their care.

Systems and processes to support staff working together are in place. These initiatives include:

- Shared planning time;
- Data conversations
- Moderation
- Shared planning documents and data in online and
- Classroom observations that include watching others work.

The major professional development initiatives are as follows:

- Coaching
- Assessment and data interrogation sessions
- Curriculum development: A variety of professional development and networking opportunities through Teachers' Learning Network, Professional Development Network, and QASSP were accessed by staff.
- A variety of Montessori professional development and networking opportunities were accessed. These included sessions with recognised Montessori training providers and school initiated sessions.
- STLaN HOSES and Principal network, cluster meetings and conferences.
- Behaviour Management – SWPBS: Non-Violent Crisis Intervention training
- Michael Grose" Parenting Idea
- Breakthrough coaching workshop
- Creating future libraries
- CPR, asthma and anaphylaxis updates
- Learning for the Garden
- Subscription to a variety of networks and organisations.

The proportion of the teaching staff involved in professional development activities during 2013 was 100%.

Our staff profile

Performance of our students

Description of how non-attendance is managed by the school

Non-attendance is managed in state schools in line with the DET policies, SMS-PR-029: Managing Student Absences and SMS-PR-036: Roll Marking in State Schools, which outline processes for managing and recording student attendance and absenteeism. Currently electronic roll marking is not undertaken. Rolls are marked by 9 am in the morning and after 2nd break. Parents can ring a dedicated absence line as of last term. Late arrivals are signed in at the office. Late slips are provided to teachers. Codes are included in rolls. Rolls are sent down on a Friday for checking/entering absences. Teachers follow up 3 consecutive day absences/ or patterns of in attendance Eg. Pattern of Fridays with parents. 5 consecutive days is followed up by a note going home to parents from school. Longer problems are addressed by admin using the notification of concern around attendance letters. One school unexplained absence reports are generated to assist in follow up.

National Assessment Program – Literacy and Numeracy (NAPLAN) results – our reading, writing, spelling, grammar and punctuation, and numeracy results for the Years 3, 5, 7 and 9.

Our reading, writing, spelling, grammar and punctuation, and numeracy results for the Years 3, 5, 7 and 9 are available via the My School website at <http://www.myschool.edu.au/>.

To access our NAPLAN results, click on the *My School* link above. You will then be taken to the *My School* website with the following **‘Find a school’ text box**.

The screenshot shows a 'Find a school' search interface. It has two main search sections. The first section is titled 'Search by school name' and contains a text input field and an orange 'GO' button. The second section is titled 'Search by suburb, town or postcode' and contains a text input field. Below this input field, there is a 'Sector' label with two radio button options: 'Government' and 'Non-government'. At the bottom of this section is an orange 'SEARCH' button.

Where it says **‘Search by school name’**, type in the name of the school whose NAPLAN results you wish to view, and select **<GO>**.

Read and follow the instructions on the next screen; you will be asked to accept the **Terms of Use** and Privacy Policy before being able to access NAPLAN data.

If you are unable to access the internet, please contact the school for a paper copy of our school’s NAPLAN results.

Performance of our students

Achievement – Closing the Gap

In 2013, Grovely State School Indigenous population was 8.3% of the 360 enrolled. Indigenous student numbers are too small in Year 3, 5 and 7 to make comment on academic performance. Indigenous student needs continue to be identified and targeted providing intervention to continue a focus on closing the gap on indigenous student outcomes. Year 3 and 7 students are similar to the nation with Year 5 above as we continue to strive to close the gap.
